## My lifetime memory - Gateway to Tomorrow

**TSM** Tokyo School of Music and Dance  
 Live Concert Planning and Creator Course (1st Year)

**KIM MINJOO**  
 Korea Shurin Japanese School

Gateway to Tomorrow 2018 dropped the curtain of success on September 14th. It became my lifelong memory. In this musical, I was responsible for publicity work. It was extremely hard to carry heavy flyers to distribute the whole region of Kasai in order to promote under the scorching sun. When we had almost given up getting sponsorship, we were able to get a donation at the last hospital we visited. We still often say about the memories of the day which was really hot and hard, but very fun. I will never forget the last curtain call that we all went up the stage. When all the student actors and backstage staffs chorused hand in hand with tears, my heart was really getting hot and deeply moved. Next year is my last chance to participate Gateway to tomorrow in my life, so I want to work harder. Everyone cheers for good work! It was fun!

## Challenge two roles "dancer" and "Narrator"!

I participated the musical "Gateway to tomorrow", which is for promoting bone marrow transplantation and has continued for 25 years this year. I had been doing dance for about 6 years in Vietnam, but I almost learned on my own, so I wanted to learn dance at a professional school! And I also would like to learn dance in my favorite country, Japan. Finally I decided to study at DA in Japan. In this Musical, I was in charge of dancing and English narration. I cherish every day, so I live each day as my last day. I was thrilled before the performance and thought I spent the best day of "today" as much as I can. I am dreaming of being a choreographer, but through this musical, I started to yearn for a stage director.

Film Course (3rd Year)

#### WANG BEN

China ISI Japanese Language School

In July 2018, Mr.Wang's directorial work "Tokyo FM" won the Excellence Award in the International Program Division among more than 1,200 programs in the "Asia Tourism-Induced Film&TV Art Week" held in China.

Mr.Wang edited materials that he has shot in Tokyo as a hobby while staying in Tokyo and what he shot with an actress for two days. Finally, he made it as a tourism PR video of Tokyo.

The film was designed to make viewers feel closer to the movie by the cooperation of the leading actress, his high school junior and friends. By using popular items among Chinese people such as sightseeing spots in Tokyo (e.g.cherry blossoms, fireworks, shrines, Tokyo Tower) and ramen noodles, and it incorporates elements such as shown the relationship between Tokyo and China.

I felt it was more difficult to become directors for foreigners because of the language barriers, cultural differences, ways of thinking and so on. "It means nothing unless you stick to it!" "I'll be a director and make my own movie!",holding these words in my heart, I will continue to chase my dream in the future.

During the period from September 9th (Sun) to 16th (Sun), we conducted overseas practical training in Kenya, Africa. At the University of Kenyatta that we first visited after arrival, we studied Kenya's history, economics and culture, and took a lecture on each national sanctuary. After that, at the Giraffe Center, we conducted a nature walk in the primeval forest while petting giraffe and checking the leaves that giraffe eats. During the safari tour of the Masai Mara National Reserve, we were able to observe the way carnivores and herbivores that inhabit the vast savannas are. We also visited local shopping malls and Masai Village where we were able to experience the local cuisine, culture and customs. What we saw, heard and felt in the midst of the great nature of Africa was a truly valuable experience.
